## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 13-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hickmann 4169478 in view of Salas-Ceniceros 5139503. Hickmann discloses the invention as claimed except for an indicator cap, comprising a C-shaped frame having first and second legs aligned along an axis, a single side skull pin 49, a rocker arm assembly 162, and a pair of skull pin (173,174). However, Salas-Ceniceros teaches a force indicator as shown in figure 6. It would have been obvious to one having an ordinary skill in the art at the time the invention was made to modify Hickmann by including a force indicator in view of Salas-Ceniceros for measuring the force applied to the skull by the pin.

Regarding claim 14, Hickmann discloses a skull pin comprising a hollow adjustment screw. See figure 19.

Regarding claim 15, Hickmann discloses a skull pin comprising a piston residing within the hollow adjustment screw. See figure 19.

Regarding claims 16-17, Hickmann discloses a skull pin comprising a spring associated with the adjustment screw and the piston.

Regarding claim 18, Hickmann discloses a correspondingly shaped bore as shown in figure 1.

Regarding claim 19, Hickmann discloses each pin carrier assembly being threadably received within the corresponding threaded bore. See figure 1.

***Allowable Subject Matter***

2. Claims 25-26 are allowed.
3. Claims 21-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
